QuickPAD PRO

QuickPAD Technology Corp.

With QuickPAD PRO, users now have all of the conveniences and applications of a notebook at a fraction of the cost and weight. Coupled with its ability to function 50 hours compared to a few notebook hours and durable design, QuickPAD PRO is your logical solution for convenient and mobile computing.

Works Great for :

- Students
- Mobile Professionals
- Legal Professionals
- Research Professionals
- Building Inspectors
- Insurance Agents
- Reporters or Journalists
- Law Enforcement
- Real Estate Professionals

Anyone who needs an affordable computing alternative!

"It is exactly what I had been hoping for. It takes no room, the batteries won't run out, and I can spend an entire flight getting some productive writing done. It's perfect.!"

Mickey Edwards
Professor at
Harvard University

"You cannot beat the convenience, portability, battery and function of the QuickPAD PRO"

Joseph A. Goodson
Screenwriter, Hollywood, CA

Simple, affordable and durable technology for today's mobile professional.

For many schools and mobile professionals the standard laptop computers are more of a burden than a helpful tool. They are complicated to use, fragile, power hungry, expensive, and too heavy! QuickPAD PRO, fulfills the needs of many users who simply want an inexpensive, powerful, yet very simple solution.

Our key to success in the commercial application of QuickPAD PRO is its versatility in multiple applications. Such applications encompass data entry, word processing, spreadsheet, scheduler and personal organizer.

The QuickPAD PRO is a convenient and economical solution for today's mobile professional. Operates for 50 plus hours on four AA batteries, QuickPAD PRO can store all information from its multiple applications into a combination of internal and external flash memory. All information that is saved into the QuickPAD PRO can be transferred to any PC or MAC desktop via USB or the infrared connection. Simply press "Send File" and your information is transferred effortlessly. No more transcribing into the computer from hand written notes. With our new template feature you can create, complete and store frequently used forms.

Made for Mobile Computing Efficiency!

QuickPAD PRO is a simple technology for basic computing needs. By combining notebook applications with long battery life, low cost and durability, QuickPAD PRO allows you to perform computing tasks at hand and increase overall productivity.

QuickPAD PRO Connectability

QuickPAD PRO's multiple I/O interfaces allows users to connect the QuickPAD PRO to any PC or MAC with minimum efforts. A variety of interfaces, such as serial port, USB or our own proprietary infrared receiver provides the user with an assortment of interface options allowing the transfer of data to and from any desktop computer. No drivers or software needed.

The QuickPAD PRO Complete Includes:

- QuickPAD keyboard
